

Product Information

Bomo-Flex Print Clear

Printable Flex Film for Solvent and Ecosolvent inks

Bomo-Flex Print Clear is a transparent polyurethane flex film, developed for eco-solvent or solvent inks.

Extra light and stretchable, Bomo-Flex Print Clear offers a great solution for all white and light colored fabrics.

Once printed and applied Bomo-Flex Print Clear is so thin and stretchable that it almost feels like a screen printed image.

Mirrored printing for total protection.

No application tape needed

Suitable Textiles

light colored cotton, blended fabrics and polyester (white).

Transfer requirement

Temp: 160 °C

Time: 15 sec

Pressure: medium

Pull off the backing paper warm

Wash resistance

Washable up to 60°C and higher

- always wash inside out
- not suitable for dryer
- always iron inside out
- do not use fabric softener
- do not use water-saving washing cycle

Particularity

Wash textile not before 48 hours after printing.

For larger, coherent designs starting from approx A5 size, the washing resistance may deteriorate. Therefore, we recommend to carry out appropriate washing tests

The technical specifications rest on extensive tests and technical research. Due to the variety of possible influences during refinement, and use, the specifications should be viewed as reference values. We recommend a suitability test on the original material. A legally binding warranty of specific characteristics cannot be derived from our specifications.
